KEYED REMOVABLE MULLIONS FOR ALUMINUM DOORS

Greenfield Custom Fab Keyed Removable Mullions

Unlike any other, our removable mullion provides optimal efficiency by creating an element barrier all around the door. The Greenfield Products Removable Mullion blends with the door frame to create the most visually appealing mullion available.

Also available in thermally improved.

CLEAN, SIMPLE, AND EFFECTIVE

Works with all major commercial storefront systems.
Available in 1³/₄" and 2" by 84" and 96". • Custom colors are available.

Having the mullion tube positioned between the single doors eliminate air flow while serving as an element barrier.

The latch plate affixed to the door frame retains the mullion top.

The base plate is attached within the thresholds to accept the mullion tube bottom.

The locking mechanism is housed within the mullion cavity to shield it from debris and unauthorized tampering.
